General information and conditions

Ordering process

Standard products that are offered in our [online store](#) can be ordered directly from the online store. For all other products in this catalog, please send an email to cs@get-cameras.com. We create the order for you and send you an order confirmation and payment link to complete the ordering process. Our general conditions apply and additionally the conditions desc.

Purchasing and loan conditions

Products in this catalog are not available for loan and cannot be returned except for the following standard products:

- [LED1-RL-90-70W](#)
- [LED1-RL-96-00W](#)
- [LED1-RIH-100W](#)
- [LED1-BL-119x16W](#)
- [LED1-CO-100W](#)
- [LED1-FL-100x100W](#)
- [LED1-DL-150W](#)
- [LED3-LS-120-24V-28W-NIR850](#)
- [LED3-LS-120-24V-26W-WHITE](#)
- [ACC-PS-24V-60W-SET-V1](#)
- [LED2-SPOT-12V-3W-White](#)
- [ACC-PS-12V-30W-SET-V1](#)

The return conditions for these specific products are:

- The original order is paid with 100% pre-payment.
- Max 3 light products can be returned.
- Products should be returned within 1 week.
- The original order is ordered with express handling (€149 euro). If the original order is ordered with economy handling. (€49 euro) or standard handling (€99 euro), the return policy is not valid.
- All goods should be undamaged in the original packaging.
- If damaged or without original packaging extra cost will be charged.
- Refunds does not include handling cost or shipping charges.

Delivery times

Only goods that are local stock goods are available as loan and can be ordered with our different handling options.

All other products are made on customer request. If light products are ordered together with an industrial camera, these will be shipped together. The delivery time of custom-made products can only be ordered with standard handling. The delivery time is around 3 weeks (standard handling).

Color of LEDs

The LED1 series is available in the following light wavelengths:

Blue: 460-475nM

Green: 520-530nM

Red: 620-630nM

White color temp: 6000-7500K

Lifetime of Lighting

In the machine vision light market, the standard expected lifetime is more than 30,000 hours (non-guaranteed value) for the LEDs. Our lighting complies to this standard.

Different colors NIR, UV, RGB

On request the lights can be equipped with different LED's. Examples are Ultraviolet (UV), Near infrared (NIR 750nM, NIR 940nM) and RGB LEDs. These custom-made lighting will always be more expensive than our standard lighting version. Please send an email to cs@get-cameras.com with the part number of the light you want to have equipped with a different LED color.

Diffusers and polarizers

On request, lights can be equipped with a diffuser or polarizer. Bar lights and backlights are standard equipped with a diffuser. Please send an email to cs@get-cameras.com with the part number of the light you want to have equipped with a diffuser or

polarizer filter.

CE & FCC Certification

The products are CE certified, therefore the products can be used in the EU. The products are not FCC certified, therefore these products can't be sold to the USA. If FCC certification is required, this can be arranged for larger order quantities. Please contact cs@get-cameras.com for further information regarding certifications.

Warranty

Products in this catalog have a 1-year carry-in warranty.

Accessories (cables, power supplies and strobe controllers)

The following accessory are available:

Partnumber	Description	Price (Euro)
LED1-CABLE-FCB1	1 meter extension cable for 24V light	€ 6,00
LED1-CABLE-FCB3	3-meter extension cable for 24V light	€ 12,00
LED1-CABLE-FCB5	5-meter extension cable for 24V light	€ 18,00
LED1-CABLE-FCB3-3P-2P	3-meter converter cable to use 24V light on strobe controller	€ 12,00
LED1-CABLE-FCB3-2P-2P	3-meter extension cable for 12V light	€ 12,00
LED1-CABLE-FCB5-2P-2P	5-meter extension cable for 12V light	€ 18,00
LED1-FCB-LN3-4pin-3	3-meter extension cable for 48V linear lights	€ 80,00
LED10-PS-12V-30W-SET-V1	100-240V Power supply, Output 12V 30W Din rail including Power cable and 3-meter light cable	€ 90,00
LED10-PS-24V-60W-SET-V1	110-240V Power supply, Output 24V 60W Din rail including Power cable and 5-meter light cable	€ 90,00
LED1-PS2C-6024-4-Z	4-Channel 24V / 60W power supply for machine vision light. Light intensity and trigger control for each channel including Din Rail mount	€ 224,00
LED1-PSC3-7548-1-LS	1-Channel 75W 48V for linear lights	€ 450,00
LED1-PSC3-55048-2-LS	2-Channel 550W 48V for linear lights	TBD
ACC-MV-LED-STROBECONTROLLER-V1	Mini Strobe controller 12 – 48V, max 2A, 10us-1023ms	€ 220,00

LED SPOT IP66 - LARGE OBJECTS, LED3-LS series

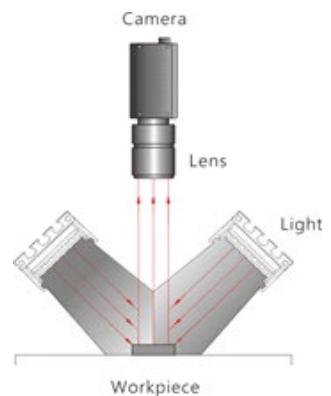

High-intensity led spot with 120 degree opening angle. It is strongly recommended to use the lights in pairs of 2, to get a better light distribution.

Applications:

Illuminating large objects for object recognition, classification and reading barcodes and datamatrix codes

Selection guide

LED3-LS-	-120	-24	-26	-WHITE
Model	Opening angle LED	Voltage	Power consumption	Color

Series	Model	Optical		Electrical		Dimension OD×ID×Height mm	Price (Euro)
		Number of LED	Opening Angle	Voltage (V)	Power (W)		
1	LED3-LS-120-24V-26W-WHITE	12	120°	24	26W	135×110×91	€ 319,00
2	LED3-LS-120-24V-28W-NIR850	12	120°	24	28W	135×110×91	€ 319,00

Ring Lights (Bright field), LED1-RL series

High-intensity bright field illumination.

LEDs are arranged in flexible circuit boards, getting the high illumination intensity by mainly radiating the central area.

Applications:

Character recognition, 2 dimension code, Electronical component and PCB.

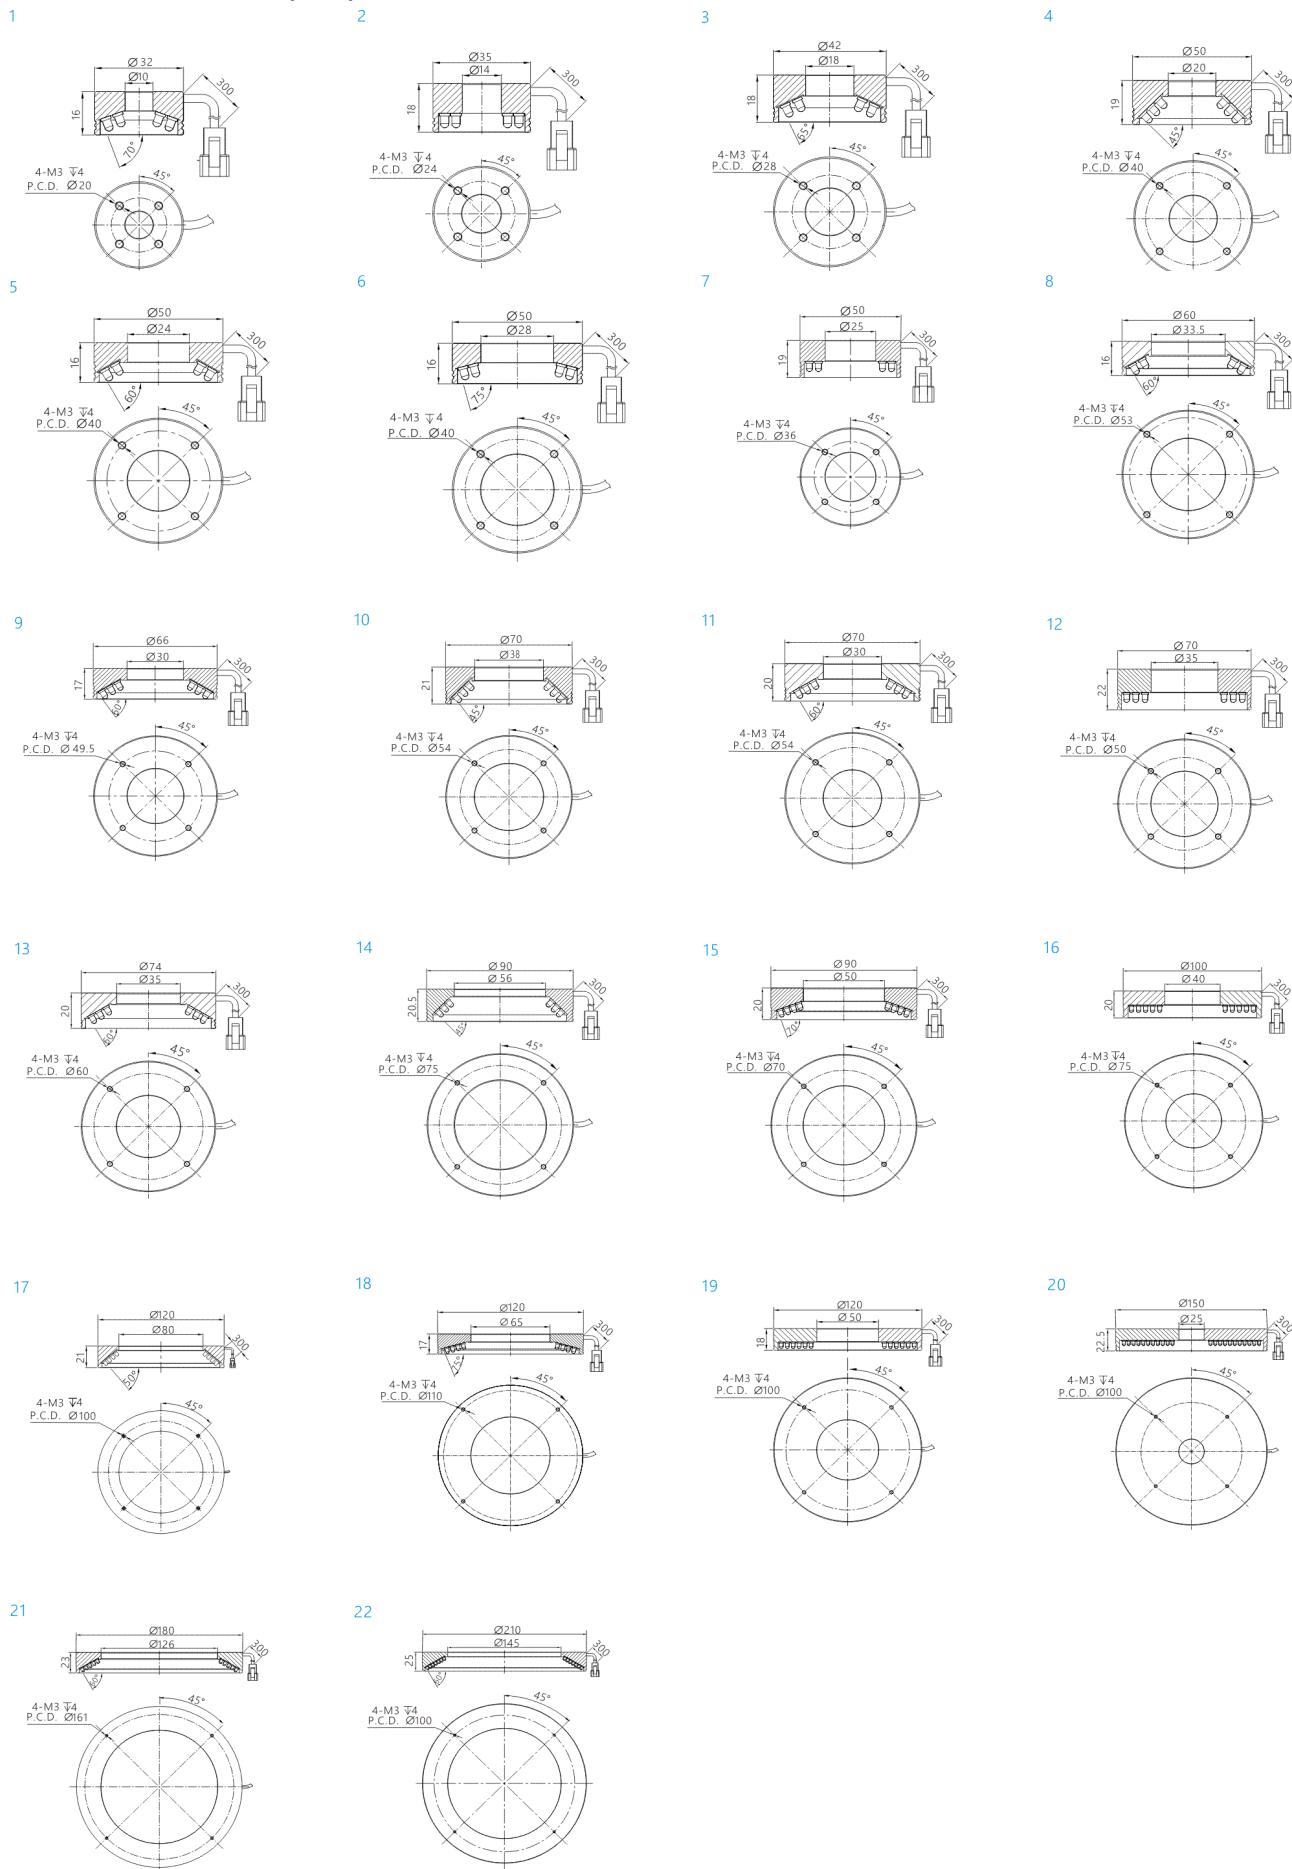

Selection guide

LED1-RL-	-	50	-	90	R

*1 The angle is the angle between the light and the horizontal plane.

*2 The power tolerance is +/-10%.

LED1-RL Dimensions (mm)

Ring Lights (Dark-field), LED1-RL series

Ideal for edge detection and highlight scratches on glossy surfaces.

Applications:

Edge detection, inspection for engraving/damage/stains on metal surfaces.
Reading laser imprints.

*1 The angle is the angle between the light and the horizontal plane.

*2 The power tolerance is +/-10%.

LED1-RL Dimensions (mm)

Ring lights (Diffuse Flat Bright Field), LED1-RIH series

LEDs are embedded around a light-guiding diffusion plate.

Uniform light is radiated from a flat emitting surface.

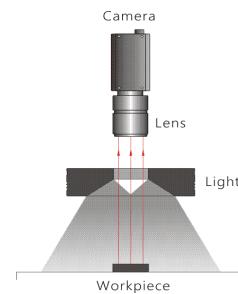

Applications:

Inspection for parts mounted on circuit boards, surface inspection of metal parts, curved object, discs, small electronics components.

Selection guide

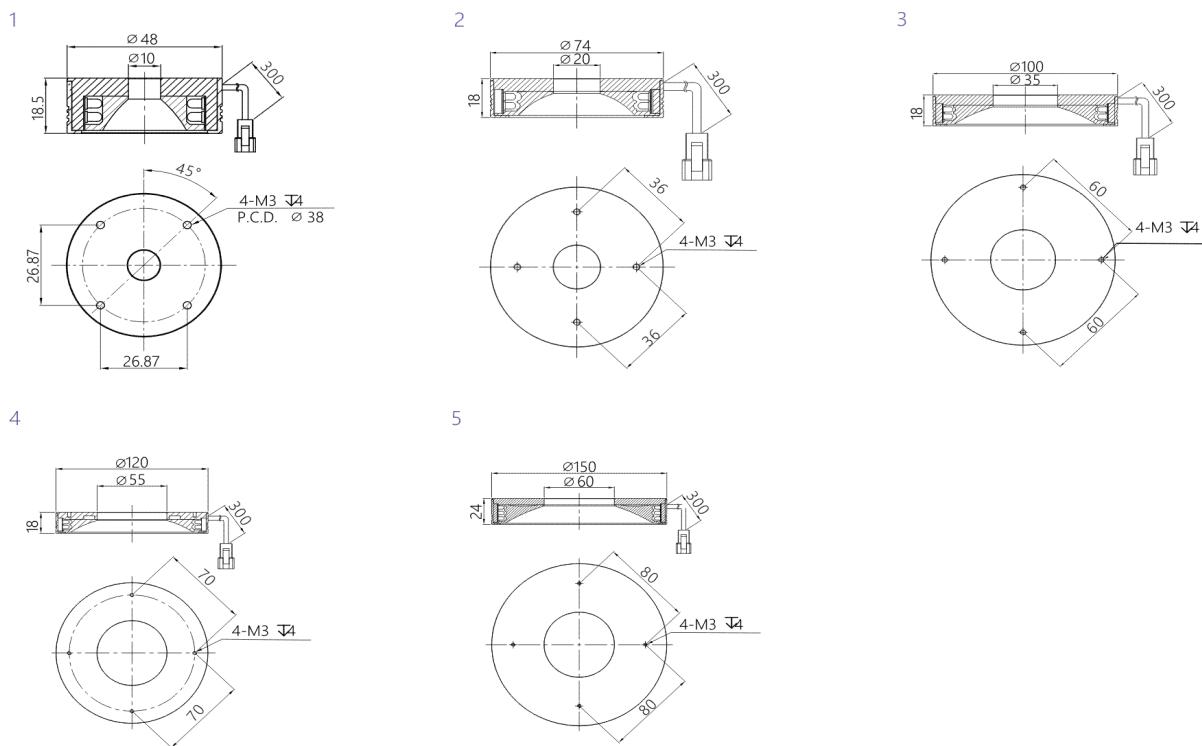

LED1-RIH	-	74	R
Model		Outer diameter	Color

No.	Model	Electric		Dimension OD X ID X Height (mm)	Price (Euro)
		Voltage (V)	Power (W)		
			● ○ ● ●		
1	LED1-RIH-48	24	2,2	3,8	48X10X18,5
2	LED1-RIH-74	24	3,6	6,3	74X20X18
3	LED1-RIH-100	24	7,4	9,7	100X35X18

5	LED1-RIH-150	24	15,0	20,2	150X60X24

* The power tolerance is +/-10%.

LED1-RIH Dimensions (mm)

Ring lights (Diffuse Dark Field), LED1-RIL series

Vertically arranged LEDs is transmitted through the light-guiding diffusion plate.
Provides diffuse light at a low angle emitting surface.

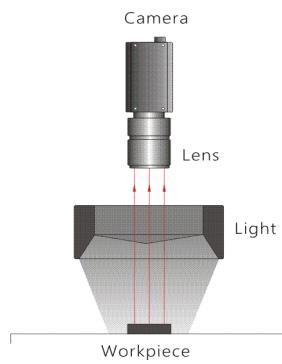

Applications:

Small defects like pin hole, splinter on glass.
Edge extraction of metal parts, Character recognition for electronical parts.
label inspection.

Selection guide

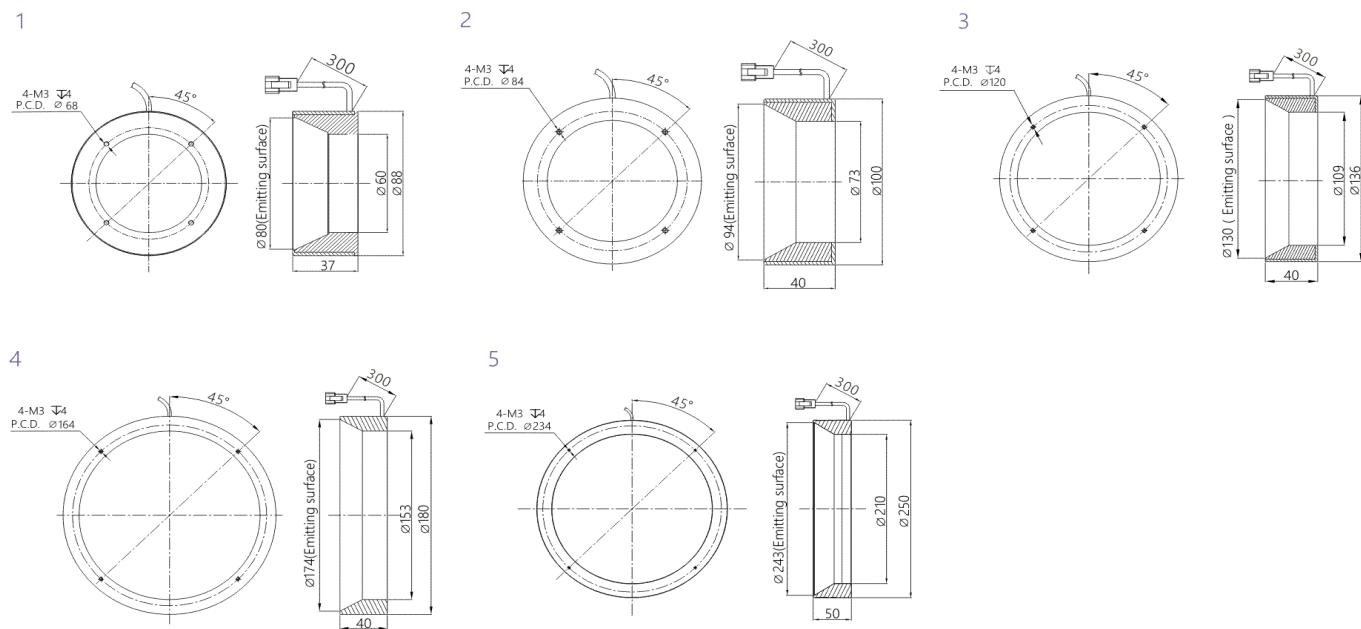

LED1-RIL	-	100	R
Model		Outer diameter	Color

No.	Model	Electric		Dimension	Price (Euro)
		Voltage (V)	Power (W)		
1	LED1-RIL-88	24	4,6	7,5	€ 302,00

5	LED1-RIL-250	24	13,1	32,8	€ 880,00

* The power tolerance is +/-10%.

LED1-RIL Dimensions (mm)

Square Lights (Diffuse Low Angle), LED1-SQR series

Provide diffuse light at a low angle from four directions

Application:

Visual inspection for electronic parts.

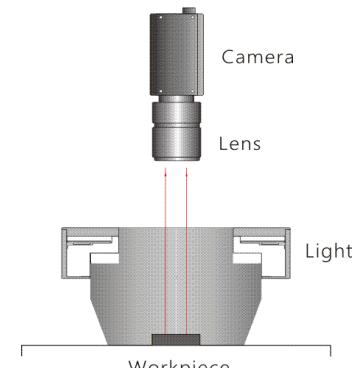

Visual and pattern inspections for circuit board, fault inspection for LCDs and IC lead inspections.

Scratches on metal surface. Solder ball inspection.

Selection guide

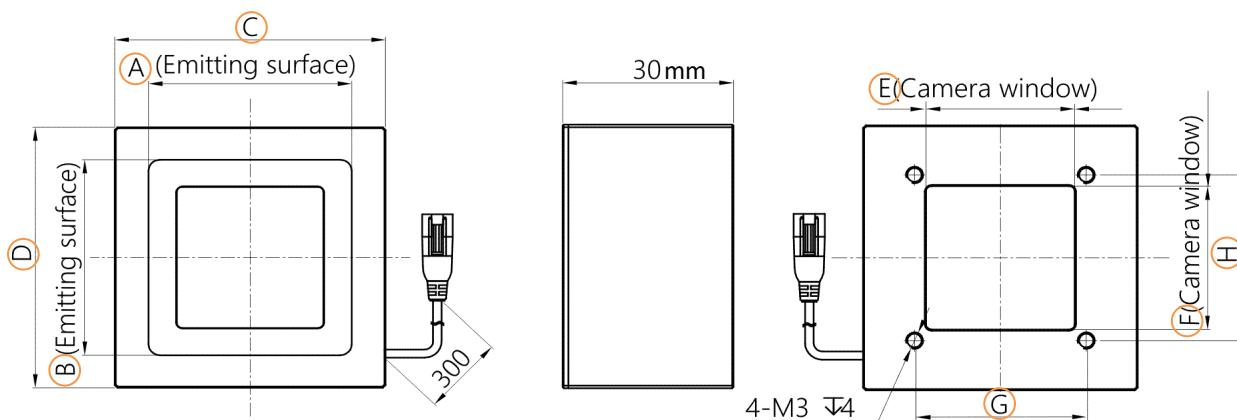

LED1-SQR	-	32	R

Bar Lights, LED1-BL series

Provide direct light from an emitting part equipped with LEDS In straight lines

Applications:

Various inspections for reading text,
visual inspection for damage on long and thin workpieces.

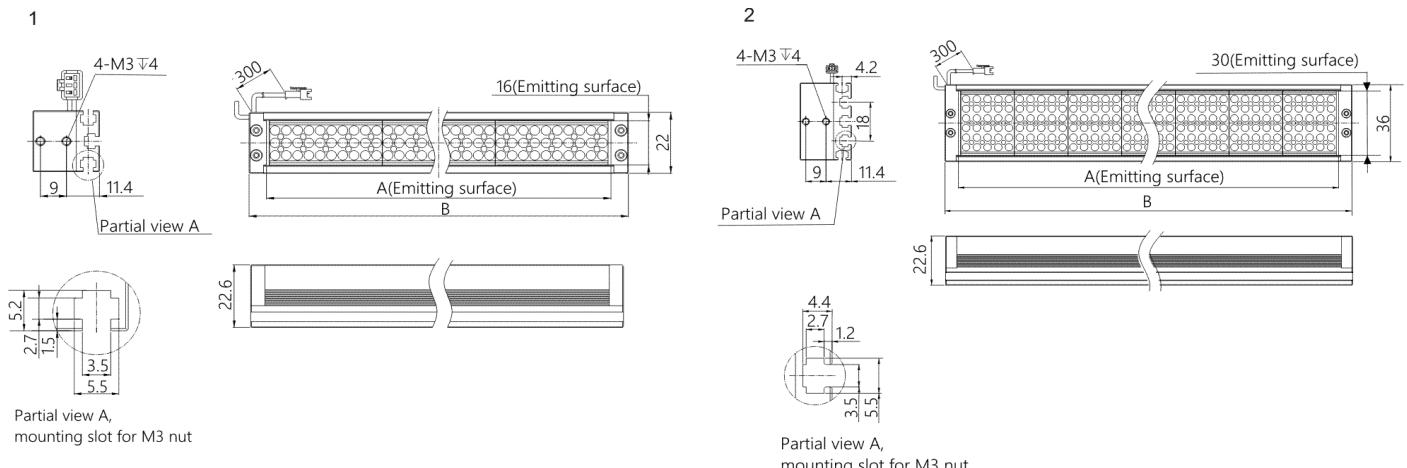

Selection guide

Combined Bar Lights, LED1-BLM series

Free angle adjustment. Intensity of each light can be controlled independently.

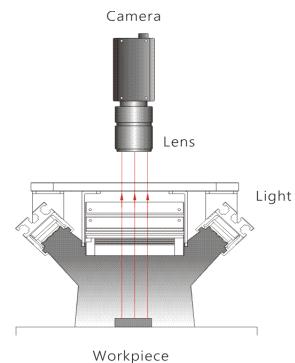

Applications:

Character recognition and defects for large square surfaces.

LED1-BLM Dimensions (mm)

Coaxial Lights, LED1-CO series

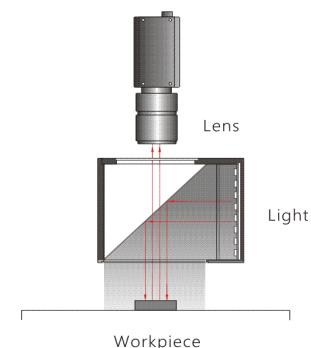

Provide diffuse and uniform illumination from the same axis as the camera.

High brightness plug-in type LED (-D) and High uniform SMD LED type for selection.

Applications:

Scratch or damage inspection on glossy and mirror surfaces.

Mark point position on FPC.

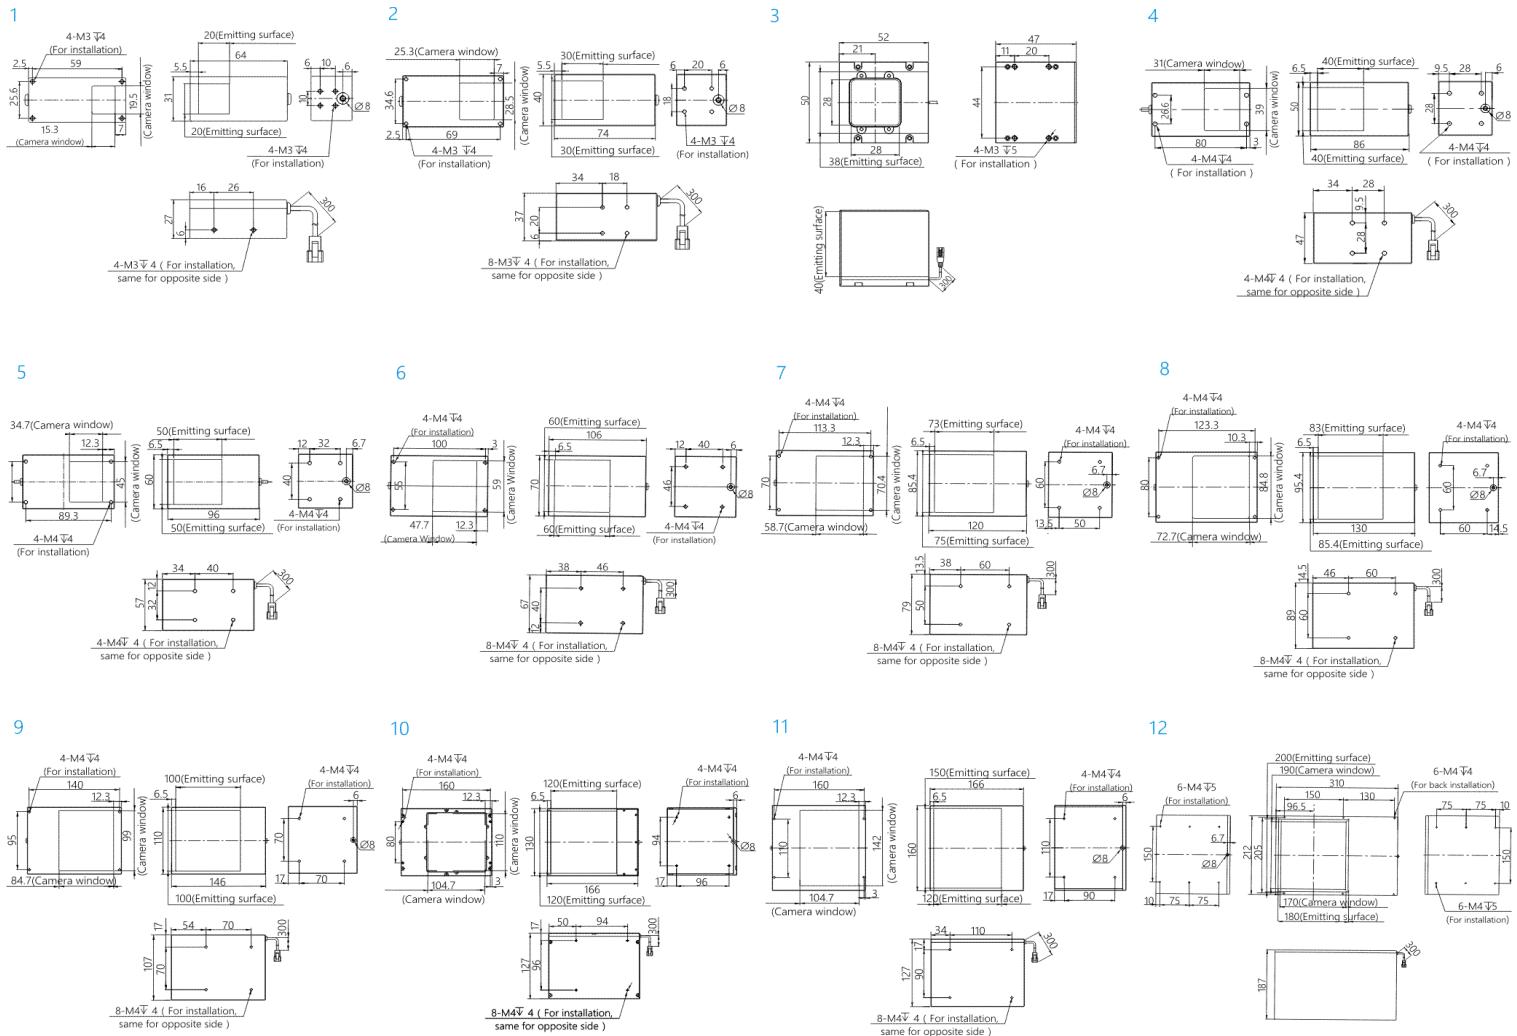

Selection guide

LED1-CO Dimensions (mm)

Coaxial Lights, LED1-COL series

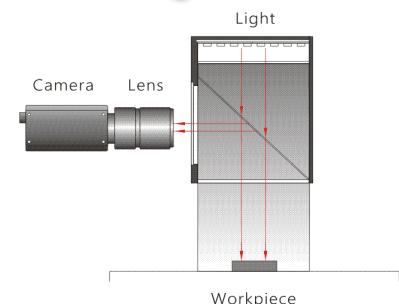

Extend version of Coaxial light which allow camera to be mount at 90° against light reflect from object.

This illumination is suitable for limited camera mounting distances.

Applications:

Scratch or damage inspection on/of glossy, shiny or mirror components and surfaces.

Mark point position on FPC.

Bottom lit backlights, LED1-FL series

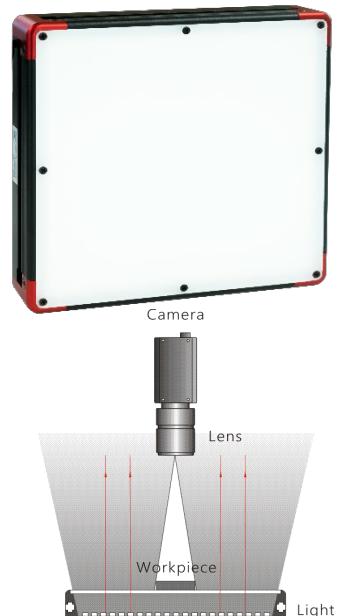

High density surface-mounted LED mount on the bottom to get a more homogeneous high output illumination. It is advised to select a backlight that has at least a 10% larger emitting area than the Field of View of the camera.

Applications:

Dimension measuring, foreign material inspections, Liquid level inspection, Edge burr inspection.

Bottom lit parallel backlights, LED1-FLP series

High density surface-mounted LED mount on the bottom.

It illuminates diffuse light evenly at high output.

Special light guide plate providing parallel light.

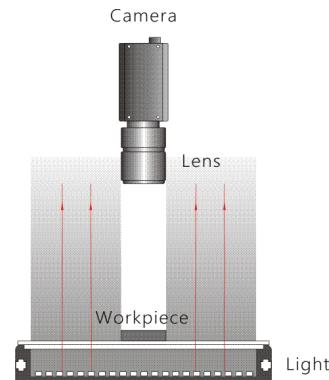

Applications:

Contour and dimension measurement, foreign material inspections, Liquid level inspection, Edge burr inspection.

Side Backlights, LED1-FLS series

LED are placed around four sides. On top a light - guiding diffusion plate. It illuminate uniformed light at large area. Ultrathin design.

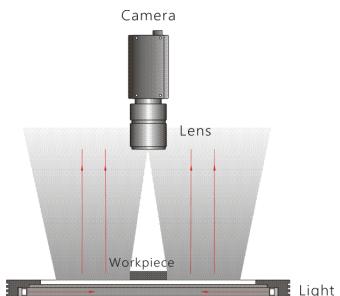

Applications:

Dimension measuring, foreign material inspections, Liquid level inspection, Edge burr inspection.

LED1-FLSP Dimensions (mm)

Direct Side Backlights, LED1-FLH series

Used in direct, uniform and large area illumination systems.

It allows a flexible installation at different working distances, or as diffuse front light.

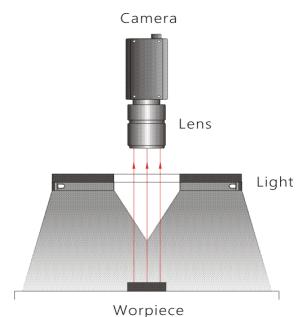

The size, quantity and location of hole can be customized.

Application:

Printing quality inspection for example, food or drug packaging, PCBA inspection.

LED1-COLN3 Dimensions (mm)

Digital controller LED1-PS2C-6024-4-Z

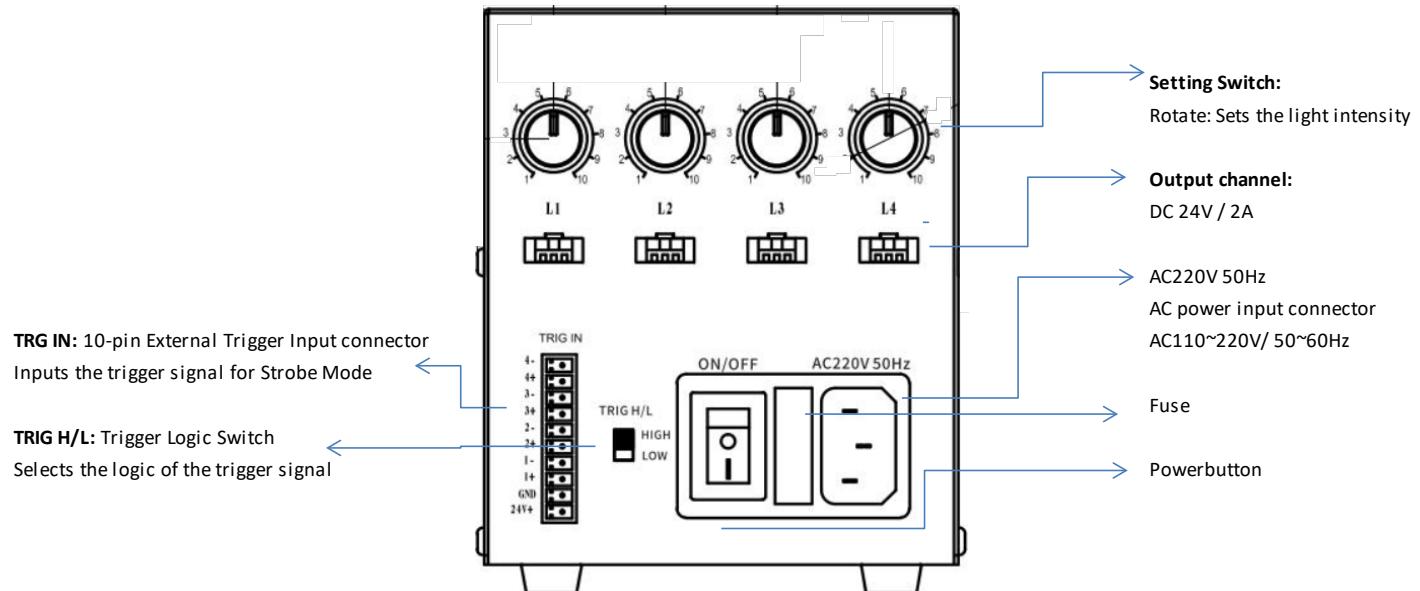

4 channel 60W powersupply for 24V lights

Characteristics:

1. Stepless light intensity control.
2. External trigger signal input for strobe lighting.
3. DIN rail mounting and bottom screw mounting available.

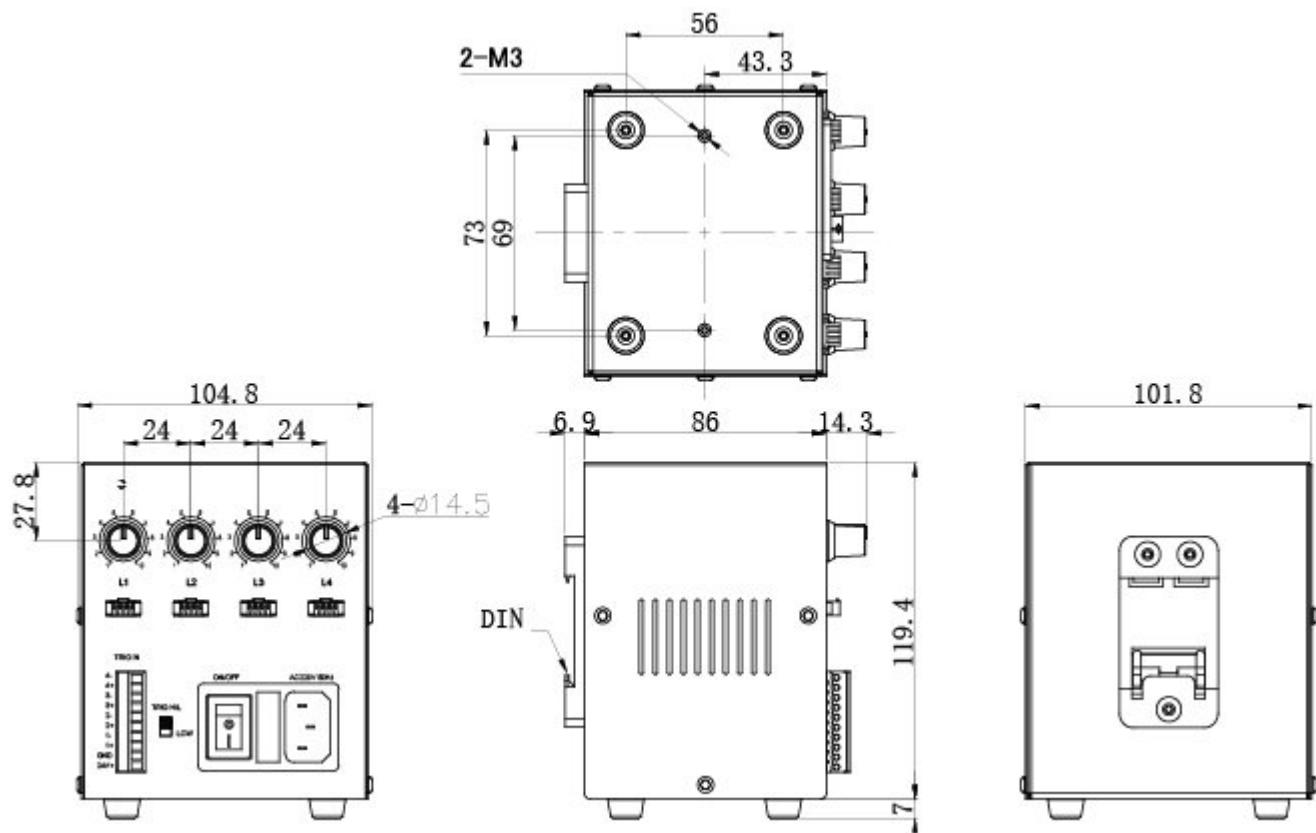

Controller overview LED1-PS2C-6024-4-Z

Specifications LED1-PS2C-6024-4-Z

Model	LED1-PS2C-6024-4-Z
Price	€ 224,--
Lighting Method	Continuous / trigger lighting
Drive method	Constant voltage system
Light control method	Variable voltage control
No. of channels	4
Output voltage (v)	12 – 24 VDC
Output Power in total (W)	60W
Maximum current in single channel (A)	2A
Trigger function	Yes
Trigger input Voltage (v)	DC 5-24V
Trigger delay	<50us
Input voltage (v)	AC 100V-240V
Working Temperature/Humidity	0~40°C / 20~80% RH (with no condensation)
Cooling method	Natural air
Material	Steel plate with painting
Weight (kg)	0.78
Dimension	107X105X126
Accessory	EU or UK power cord (included) Extension cable 1-mtr 24V (+ 6,00) Extension cable 3-mtr 24V (+ 12,00) Extension cable 5-mtr 24V (+ 18,00)

Dimensions LED1-PS2C-6024-4-Z

Digital controller LED1-PD4-6024-4-Z

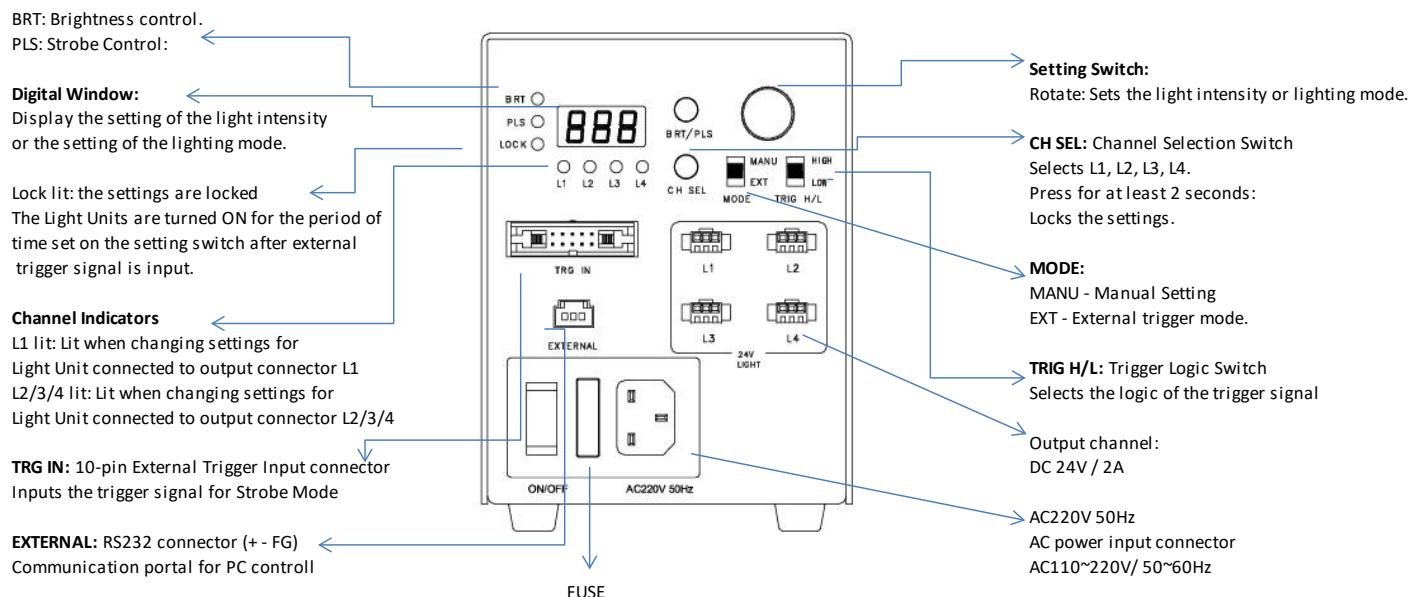

4 channel 60W powersupply for 24V lights

Characteristics:

1. 0~255 steps light intensity control.
2. External trigger signal input for strobe lighting.
3. One EIA-485 communication port can control 100 controllers.
4. RS-232 and EIA-485 communication connector for selection.
5. Can set PWM frequency to avoid rippling.
6. DIN rail mounting and bottom screw mounting available.

Controller overview LED1-PD4-6024-4-Z

Specifications LED1-PD4-6024-4-Z

Model	LED1-PD4-6024-4-Z
Price	€ 348,--
Lighting Method	Continuous / trigger lighting
Drive method	Continuous / trigger lighting
Light control method	PWM and light time control
No. of channels	4
PWM frequency	62.5KHz, 125KHz, 250KHz, 500KHz
Error detection display	Displayed on front digital display
Over-current protection	Output shutdown: 107% min. of rated load. Reset after turning the power off and on again.
Trigger function	Yes
Input voltage (v)	AC 100V-240V
Trigger input Voltage (v)	DC 5-24V
Output voltage (v)	DC24V
Output Power in total (W)	60W
Maximum current in single channel (A)	2A
ID setting	ID: Software setting (0-99)
Working Temperature/Humidity	0~40°C / 20~80% RH (with no condensation)
Cooling method	Natural air
Material	Steel plate with painting
Weight (kg)	0.72
Dimension	97X106X126
Accessory	EU or UK power cord (included) Extension cable 1-mtr 24V (+ 6,00) Extension cable 3-mtr 24V (+ 12,00) Extension cable 5-mtr 24V (+ 18,00)

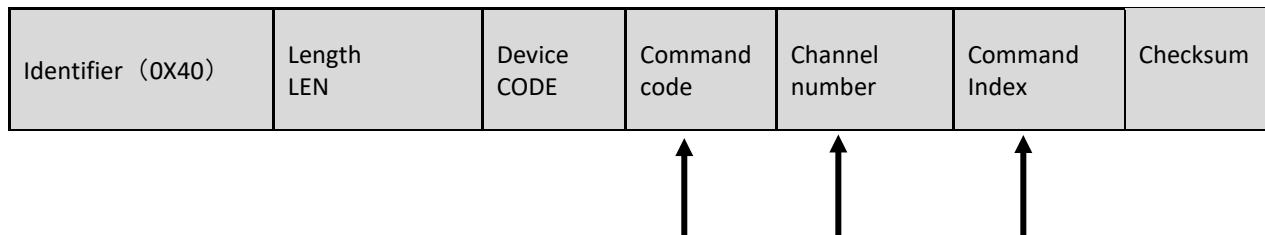

Communication specification	
Light intensity control	Manual adjustment 256 steps dimmer knob
	External: EIA-485/RS-232 communication command input
ON/OFF set	External trigger input or EIA-485/RS-232 communication command input
Lighting mode set	Manuel: Dimmer switch in 11 steps
	External:EIA-485/RS-232 communication command input
Failure output	Sending instructions when Output current detection
External control port	Trigger input: 10 / 14 pin MIL connector
	Trigger input: 3 pin e-CON connector
Parallel communication protocol	See instruction

Serial protocol LED1-PD4-6024-4-Z

1. Communication parameter

Protocol	Working mode	Rate	Transport format			
RS-232	Half-duplex	19200bps	Start bit	Data bits	Check bit	Stop bit
			1	8	0	1

2. Communication format

Command	Command code	Channel number	Command Index	Remark
Setting ID	0x09		0~99	
Setting PWM	0x11		0~03	0-62.5K, 1-125K, 2-250K, 3-500K
Setting brightness	0x1A	00~03	0~255	
Setting trigger way	0x22	00~03	0~10	0-F00, 1-F01,
On/OFF	0x2A	00~03	0~01	0 - Stand for OFF 1- stand for ON
Red index	0x31	00~03		
Device reply CH1	0x5B		Brightness, Trigger, ON/OFF	Device reply one specified channel's index
Device reply CH2	0x64		Brightness, Trigger, ON/OFF	Device reply all specified channel's index
Device reply correct	0x00			command in control package all correct
Device reply wrong	0x01		Wrong code	command in control package all wrong

3. Output Channel

Channel (0x40)	L1	L2	L3	L4	L5	L6
Setting	00	01	02	03	04	05

4. Trigger mode

Trigger mode	F00	F01	F02	F03	F04	F05
Settings	00	01	02	03	04	05
Lighting time	constant	40µs	80µs	120µs	200µs	600µs

F06	F07	F08	F09	F10	
06	07	08	09	10	
1ms	4ms	1ms	20ms	40ms	

5. Example (Set light intensity as 128 with controller L1 of PD4 series, whose ID is 0)

Identifier	Length	Device Code	Device ID	Command			Checksum
				Command code	Channel No.	Command Index	
0x40	0x05	0x01	0x00	0x1A	0x00	0x80	0xE0
Commands rollback : 0x40, 0x03, 0x03, 0x00, 0x00, 0x46							

Example (Set triggermode F08 of channel 2)

Identifier	Length	Device Code	Device ID	Command			Checksum
				Command code	Channel No.	Command Index	
0x40	0x05	0x01	0x00	0x22	0x01	0x08	0x71

Example (all channels ON)

Identifier	Length	Device Code	Device ID	Command			Checksum
				Command code	Channel No.	Command Index	
0x40	0x05	0x01	0x00	0x2A	0xFF	0x01	0x70

Accessory LED1-PD4-6024-4-Z

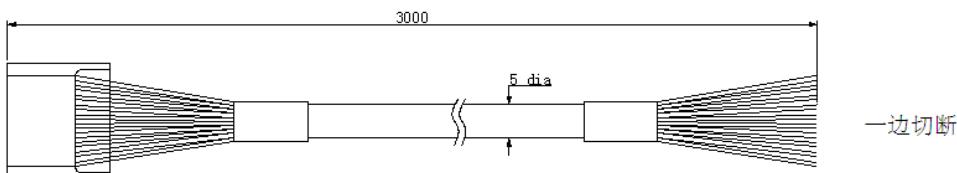

LED1-PD4-6024-4-Z Connection example of Trigger Input Cable

Pin No.	Signal		Line color
1	Channel 1	Anode	Brown
2		Cathode	Orange
3	Channel 2	Anode	Yellow
4		Cathode	Black
5	Channel 3	Anode	Blue
6		Cathode	Green
7	Channel 4	Anode	Purple
8		Cathode	Grey
9	Power output 5V/200mA	Anode	White
10		Cathode	Red

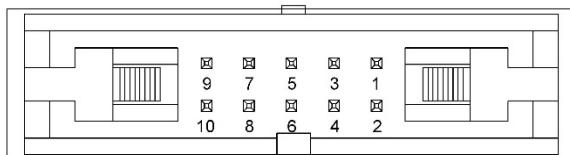

Optional cables LED1-PD4-6024-4-Z

trigger input cable (Model : TRI-4) --Standard

- LED1-PD4-6024-6 MIL connector

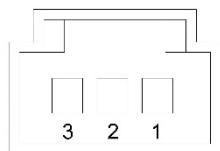

- External trigger cable dimension (unit: mm) (Unit : mm)

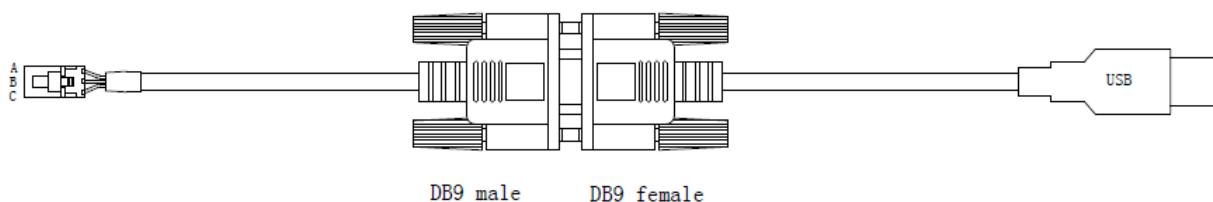

2.RS-232 Communication cable (Model : LS-232-3) --Standard parts.

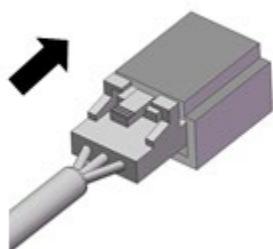

- RS-232 cable into controller

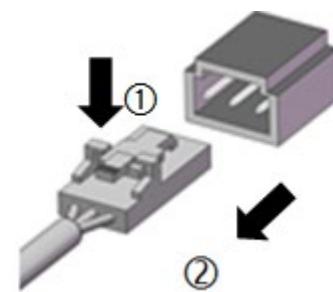

- RS-232 to USB Communication cable dimension (Unit : mm)

- Fix method

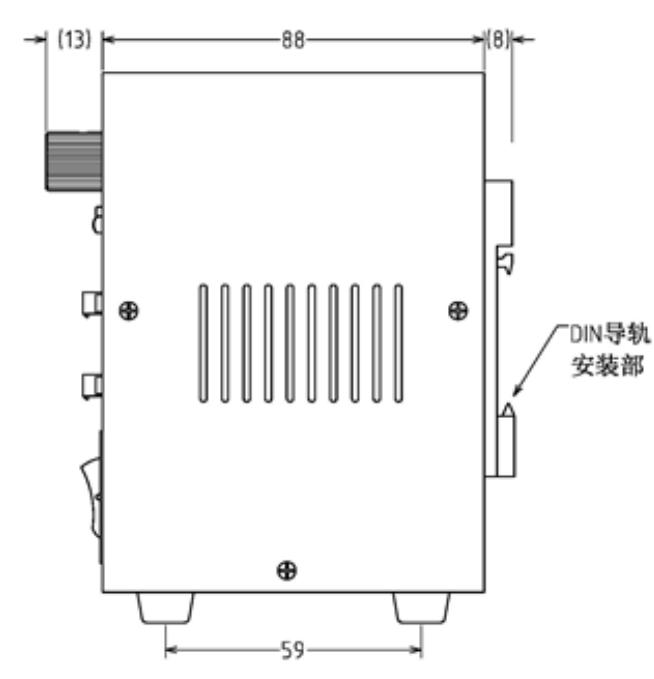

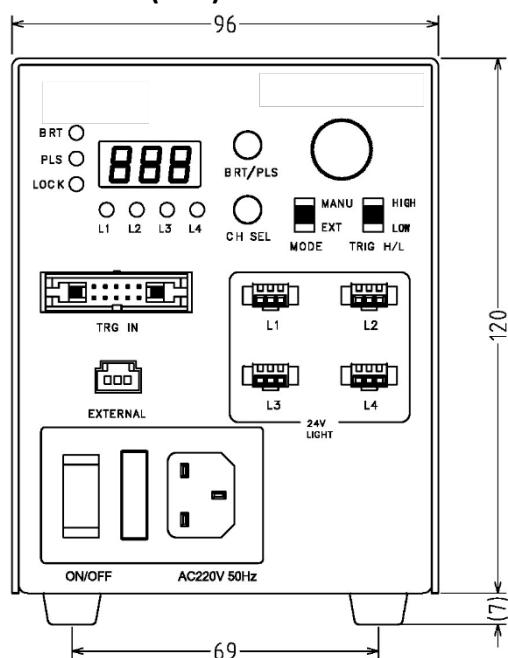

Fix: push connector into socket.

Disassembly: Press down the lock pull out connector
